

Dear Friends,

As I sit here trying to put my thoughts to paper, I find myself at a loss for words. My ex-wife would find this difficult to believe, as she always said that I was full of words as well as some other rather nasty things, but that is another story. Receiving a diagnosis of cancer was something that I had never considered, and it really put me in a bad place emotionally. As I walked into your office, and was greeted by the beautiful Peter Lik photographs, I could feel my spirits starting to rise and my outlook started to improve. As I think of the wonderful skillful corrective work that Dr. Rotunda performed on me, and the fantastic caring support that I received from the entire team, I realize that you, My New Dear Friends, changed what could have been one of the darkest days of my life into a warm memory that I will carry with me for as long as I live. I really appreciate that Dr. Rotunda was always there to answer all my questions since this therapy was something that I had no experience with. It was reassuring to know that I had him in my corner. Finally the poached salmon salad was a great lunch choice.

Thank you and may God bless you all
